DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1, 12, 18, 23, 28, 59, 73, 81, 88, 97 and 104 are rejected under 35 U.S.C. 101 because the claimed invention lacks patentable utility. The claims do not produce a useful, tangible and concrete result. The claims only claim a method of framing a payload. The steps merely manipulate numbers, signals, and abstract ideas that are not concrete or tangible.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 81 and 104 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 81 recites the limitation "fourth value" in line 8. There is insufficient antecedent basis for this limitation in the claim.

Claim 104 recites the limitation "the second subset" in line 9. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

5. Claims 30-34, 36-42, 47, 52, 57 and 58 are allowed.

Art Unit: 2616

6. Claims 2-5, 7-11, 13, 29, 60-67, 74-78, 82, 89, 91-94, 98-101 and 105 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
